Automotive Refinish Market

Pistol Grip Filter Included!

The Iwata Kustom Airbrush Series features the Pistol-Grip Filter, your last defense against moisture.

Kustom painting takes pole position! The Iwata Kustom Series shines in atomizing solvent-based paints. With PTFE packings, large cups, pre-set handles and taller triggers these airbrushes distinguish themselves as Kustom.

Iwata Kustom Hi-Line HP-TH — PN: 4292 (K9200)

The Kustom TH delivers unprecedented control of a fan pattern with a minimum of overspray giving it a unique advantage over mini touch up guns. Great for small areas such as chip repair, fender wells, door jams and other hard-to-reach areas.

- 0.50 mm nozzle
- MAC Valve (Micro Air Control)
- "Fan-Patterned" air cap (fan pattern requires compressor with at least 1.2 cfm)
- "Round-Patterned" air cap
- PTFE needle packings
- Large, 1/2 oz. (14 ml) removable gravity-feed fluid cup
- Spray gun trigger design

Kustom Custom Micron CM Airbrush — PN: 4290 (K9000)

The mac daddy of all airbrushes, the Kustom CM is framed around the Iwata Custom Micron airbrush. The Kustom CM airbrush provides extreme control of ultra fine-line spray, silky smooth atomization and ultimate paint-flow control with hand-tuned, hand-adjusted performance.

- 0.23 mm "Matched Head System"
- Large, 1/2 oz. (14 ml) gravity fluid cup
- Taller trigger for extreme control of trigger action and paint flow
- MAC Valve for precise air pressure control
- PTFE needle packings

Kustom Hi-Line CH Airbrush — PN: 4295 (K9100)

A preferred airbrush for users who need ultimate control of fine-line work and medium background spraying, the Kustom CH boasts a MAC Valve that supplies precise air control to the head of the airbrush for ultimate control.

- 0.30 mm
- Large, 1/2 oz. (14 ml) gravity fluid cup
- Taller trigger for extreme control of trigger action and paint flow
- MAC Valve for precise air-pressure control
- PTFE needle packings

Kustom Eclipse CS Airbrush — PN: 4298 (K9300)

The workhorse of the Kustom line, the CS features a large general-purpose nozzle/needle combination. Still maintaining fine-line control, the CS creates wide background sprays with fine atomization and control. Designed to spray metallic, pearlescent and base-coat paints.

- 0.35 mm
- Large, 1/2 oz. (14 ml) gravity fluid cup
- Taller trigger for extreme control of trigger action and paint flow
- PTFE needle packings

Kustom Revolution TR Airbrush — PN: 4294 (K9400)

Triggering the passion of spray-gun users, the TR airbrush proves easy to use. The long trigger provides commanding control of the airbrush spray.

- 0.30 mm
- Large, 3/4 oz. (21 ml) gravity fluid removable cup
- Spray-gun trigger design
- PTFE needle packings

Airbrushes DO NOT come with hoses unless noted otherwise.

iwata

Custom Micron

Absolute Precision for the Elite Professional

VERSION 2

For the elite professional who demands precise and accurate control of very detailed spraying, the Custom Micron Series is built to be the "best of the best," hand-tested and adjusted by the world's leading airbrush technicians.

The Custom Micron Version 2 has the same superb atomization but boasts new features. All Custom Microns now feature an ergonomic trigger, a single-piece auxiliary lever/needle-chucking guide to provide easy assembly and the crown cap dock.

Ergonomic trigger prevents finger fatigue

Never lose your crown cap again with the crown cap dock

Iwata Custom Micron CM-C Plus — PN: 4212 V2 (ICM4502)

- Using the same matched-head assembly as the other trusted Custom Micron airbrushes, the Custom Micron CM-C Plus has the same precise feel that's entirely unique to a Custom Micron airbrush (.23 mm nozzle)
- A breakthrough technology, the Micro Air Control (MAC) Valve enables infinite control of the airflow at the head of the airbrush, which provides even more control of stippling, fine details and finely atomized background spraying
- The solvent-proof PTFE needle packing allows for the use of automotive or other solvent-based paints
- The funnel shape of the redesigned gravity-feed cup lets the airbrush be used effectively with only a couple drops of paint, ensuring a fast and thorough clean up
- A cutaway handle enables users to grab the needle-chucking nut and quickly pull back the needle to flush paint out of the cup and paint passageways for a quick and easy clean up

Iwata Custom Micron CM-C — PN: 4208 V2 (ICM4002)

- Ideal for professional use where heavier paints are required (.23 mm nozzle) or when larger work is being created
- The Iwata Custom Micron matched-head system ensures superior atomization
- Features a larger 1/3 oz. (9 ml) gravity-feed color cup for working with large volumes of paint

Iwata Custom Micron CM-B — PN: 4202 V2 (ICM2002)

- The smallest nozzle and needle combination (.18 mm) for the most precise and accurate control of detail spraying
- Features a 1/16 oz. (1.8 ml) gravity-feed cup that cleans quickly for rapid color changes
- A highly polished, hardened stainless-steel needle provides an exceptionally smooth transition from detail to mid-range spraying

Iwata Custom Micron CM-SB — PN: 4209 V2 (ICM3002)

- The same features of the Custom Micron B except it has a 1/8 oz. (3.5 ml) side-feed cup, which is engineered for right- and left-handed use
- Because it is side-fed, a view directly over the top of the airbrush allows for up-close, fine detail work
- For larger artwork, the Custom Micron versatility is enhanced by an optional 1/4 oz. (7 ml) side-feed cup, 1/2 oz. (14 ml) gravity-feed cup or a 1 oz. (28 ml) siphon bottle

Airbrushes DO NOT come with hoses unless noted otherwise.

Hi-Line

Hi-Control of Hi-Precision Work

iwata

Featuring the ultimate in air control directly at the nozzle with Iwata's Micro Air Control (MAC) Valve Technology, the Hi-Line Series is designed for artists who need extreme control of detailed spraying. The Hi-Line Series is made with a PTFE needle packing, a dual-purpose cutaway, pre-set handle and one-piece auxiliary lever/needle chucking guide.

Iwata Hi-Line HP-AH — PN: 4231 (H1100)

- Features a 0.2 mm nozzle
- Larger threads on the nozzle offer a more secure fit and better centering of the nozzle on the body
- Sprays with one drop of paint in its 1/32 oz. (0.9 ml) fluid cavity

Iwata Hi-Line HP-BH — PN: 4232 (H2100)

- Like the HP-AH, it has a 0.2 mm nozzle but has a larger 1/16 oz (1.8 ml) cup for holding more paint
- The gravity-feed cup features a smooth inside taper that provides for a quick and easy clean up

Hi-Line HP-CH — PN: 4003 (H4100)

- Features a 0.3 mm nozzle and a large 1/3 oz. (9 ml) tapered gravity-feed cup
- The larger nozzle and needle makes this an ideal airbrush for spraying a variety of paints from watercolors to solvent-based automotive paints

Micro Air Control (MAC) Valve

A breakthrough technology, the Micro Air Control (MAC) Valve enables infinite control of the airflow at the head of the airbrush, which is different than just regulating the air pressure at the compressor.

- Lets users spray a coarse stippling effect to full atomization with a quick turn
- For fine line or detail work, it can be adjusted to create the optimum airflow for maximum control of the paint output
- By fully opening the MAC Valve, the airbrush can quickly be cleaned during color changes or for wide background spraying

Airbrushes DO NOT come with hoses unless noted otherwise.

iwata
High Performance
High-Precision, High-Detail Work
plus

Renowned as the professional's workhorse, the popular High Performance Series features: PTFE needle packing, a dual-purpose cutaway, pre-set handle and one-piece auxiliary lever/needle-chucking guide.

Iwata High Performance Plus HP-A Plus — PN: 4233 (H1001)

- Features a 0.2 mm nozzle and needle combination for high-precision, detail spraying
- The 1/32 oz. (0.9 ml) fluid cavity is perfect for spraying small amounts of media in a small area

Iwata High Performance Plus HP-B Plus — PN: 4234 (H2001)

- Similar to the HP-A Plus except with a larger 1/16 oz. (1.8 ml) gravity-feed color cup

Iwata High Performance Plus HP-C Plus — PN: 4004 (H4001)

- A practical choice for most airbrush uses
- Its larger 1/3 oz. (9 ml) gravity-feed cup and larger (0.3 mm) needle/nozzle configuration allow for use with most media
- An airbrush that does it all – from fine hairlines to finely atomized background spray, along with an entire range of stippling effects
- The gravity-feed cup is useful for mixing custom colors and allows quick color changes
- Short paint passageway from the cup to the front of the airbrush gives it a responsive feel and allows it to be one of the quickest cleaning airbrushes in the industry

Iwata High Performance Plus HP-SB Plus — PN: 4235 (H3001)

- Similar to both the HP-A Plus and HP-B Plus, except it has a 1/8 oz. (3.5 ml) side-feed color cup
- Side-feed cup allows right- or left-handed use, and for slower detail spraying and better vision of the work surface
- Optional 1/4 oz. side cup, 1/2 oz. gravity cup or a 1 oz. siphon bottle add to the versatility of this airbrush

Iwata High Performance Plus HP-BC Plus — PN: 4236 (H5001)

- A high-detail, high-precision, bottom-feed airbrush for artists who need quick color changes with a certain set of colors
- Similar in spray characteristics and needle-nozzle size to the HP-C Plus, it has very good atomization and is extremely reliable
- Includes a 3/4 oz. glass bottle

Airbrushes DO NOT come with hoses unless noted otherwise.

iwata Eclipse

Ultimate Versatility, Reliability and Performance

The multi-purpose, high-paint-flow, versatile airbrushes of the Eclipse Series cover a wide range of uses. Because they can spray heavier paints and achieve a fine line as well as a 2" wide pattern, they are well suited for just about any application or project. These are the most popular Iwata airbrush models due to their versatility, not to mention that they get such a varied spray pattern from just one size nozzle and needle!

Iwata Eclipse HP-CS — PN: 4207 (ECL4500)

- Gravity-feed airbrush features a unique 0.35 mm needle and nozzle combination for fine-detail spraying, but with high-paint-flow capacity
- Generous 1/3 oz. sized cup is designed with a new funnel shape, which makes for easy clean up and more efficient paint flow
- Automotive artists, fine artists and students will appreciate how well the Eclipse CS sprays heavier acrylics and Medea Textile Colors, while maintaining high-detail spray characteristics

Iwata Eclipse HP-SBS

PN: 4205 (ECL3500) — Airbrush and 1/8 oz. side-mount cup

PN: 4206 (ECL3550) — Autographics - Airbrush, 1/2 oz. side-mount cup and 1 oz. siphon-feed bottle

- Side-feed airbrush features a 0.35 mm needle and nozzle combination with the option of four cup sizes – the standard 1/8 oz. side cup, a 1/4 oz. side cup, a special 1/2 oz. gravity-feed side cup or a 1 oz. siphon-feed bottle
- Ideal for custom automotive graphics and murals, as well as for fine-arts work that requires custom color mixing and thicker paints
- The Autographics version of the HP-SBS is similar to the standard HP-SBS except it comes with a large 1/2 oz side mount, gravity-feed cup and a 1 oz. siphon-feed bottle

Iwata Eclipse HP-BCS

PN: 4200 (ECL2000) — Airbrush and bottle only

PN: 4201 (ECL2001) — Airbrush, bottle, hose, cleaner and paint

- Bottom-feed airbrush features a 0.5 mm needle and nozzle combination
- Sets the industry standard for high-performing, general-purpose, high-paint-flow airbrushes
- Versatile, reliable performance — this airbrush does it all

Iwata Eclipse G Series

Iwata Eclipse G3 — PN: 4331 (ECL9100)

Iwata Eclipse G5 — PN: 4332 (ECL9200)

- Unique "pistol-grip" feel, looks like a miniature spray gun, but sprays and performs like a large airbrush
- Works with most twin-piston airbrush compressors
- True center-post gravity-feed airbrushes
- MAC Valve for precise control of air and spray
- True fan pattern spray like most spray guns
- Twilight-chrome finish
- **G3:** 0.3 mm stainless steel nozzle and 4oz. stainless-steel cup and lid
- **G5:** 0.5 mm stainless steel nozzle for heavier paints and 8oz. stainless-steel cup and lid

Iwata Eclipse G6 — PN: 4214 (ECL9000)

- Unique "pistol-grip" feel, looks like a miniature spray gun, but sprays and performs like a large airbrush
- Equipped with a long tapered needle that ensures a smooth transition between fine-to-wide background spray
- Utilizes a dual-purpose air cap and a fan adjustment valve that lets the airbrush spray a round or fan pattern. The round pattern is useful for painting graphics, while the oval or fan shape creates a smooth background spray
- Uses a special fitting so airbrush bottles can be used instead of a gravity-feed cup (optional gravity-feed cups available), allowing for multiple color bottles to be interchanged quickly without having to clean a cup thoroughly

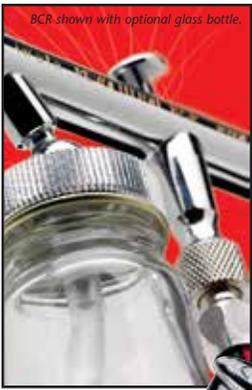

BCR shown with optional glass bottle.

iwata Revolution

Quality, Performance and Value

Start off airbrushing with the industry leader — Iwata. Made for users at all levels, the Revolution Series features top-of-the-line airbrushes at a great value. With breakthrough technology and performance, these airbrushes outperform all others in their price range.

Iwata Revolution CR — PN: 4247 (R4500)

- A gravity-feed airbrush designed for quick changes of custom mixed colors
- Versatile for moderate detail to background spraying
- Perfect for general-purpose art-and-craft projects, as well as model-railroad detailing, R/C car bodies, plastic kits and automotive painting

Iwata Revolution SAR (Single-Action) — PN: 4239 (R1000)

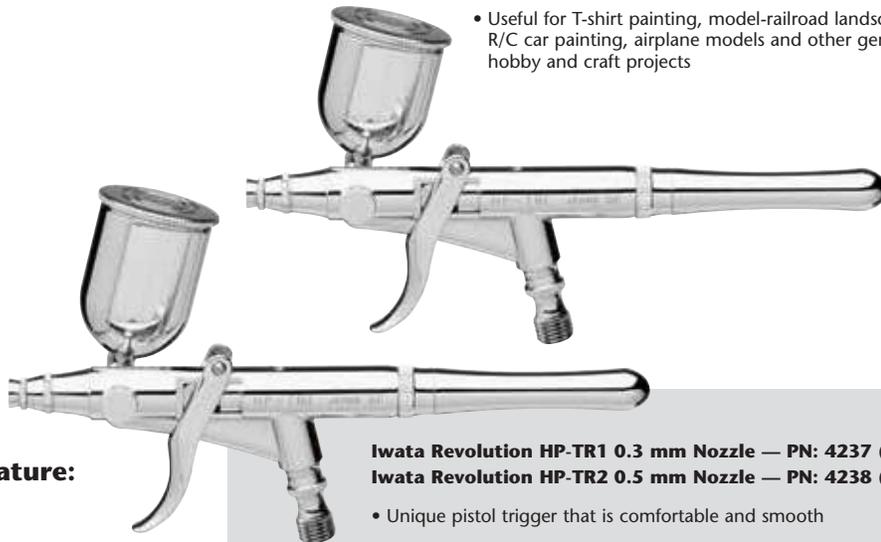

- A breakthrough in single-action airbrush design
- Built with the same quality and performance as the dual-action airbrush
- Perfect for those seeking high performance in a single-action design

Iwata Revolution BCR

PN: 4240 (R2000) — Airbrush and bottle only
PN: 4241 (R2001) — Airbrush, bottle and hose

- A bottle-feed, dual-action airbrush for general-use spraying
- Siphon-feed model makes it easy to swap out bottles of specific colors quickly
- Useful for T-shirt painting, model-railroad landscapes, R/C car painting, airplane models and other general art, hobby and craft projects

Iwata Revolution HP-TR1 0.3 mm Nozzle — PN: 4237 (R5000)

Iwata Revolution HP-TR2 0.5 mm Nozzle — PN: 4238 (R5500)

- Unique pistol trigger that is comfortable and smooth
- Featuring the Pistol-Grip Filter, your last defense against moisture and 1/3 oz (TR1) or 1/2 oz. (TR2) side-mount color cup
- Dual-action for full control over paint and spray
- Great for custom automotive painting since the design offers a similar feel and comfort typical of spray gun usage
- Can also be used with Iwata 1 oz. and 2 oz. side-mount bottle sets, which are available separately

Iwata Revolution Airbrushes Feature:

- Internal mix airbrush
- Ergonomic handle design
- Fine detail to 1-1/2" spray pattern
- Larger nozzle and needle combination (0.5 mm) makes for easier spraying of thicker or heavier paints
- Redesigned trigger mechanism and larger needle-chucking nut for easy assembly
- Replaceable internal PTFE needle packing for use with solvent-based paints
- Value priced

Airbrushes DO NOT come with hoses unless noted otherwise.

Auto-GFX CA

for iwata

Perfect for the beginner to professional custom auto-graphics artist, the Auto-GFX CA for Iwata airbrush features smooth atomization for fine details and is specifically designed for solvent and waterborne automotive paints and pigments. Preferred when working in a small to medium sized areas with small amounts of paint, gravity-feed airbrushes perform well at lower air pressures, which help create greater detail.

Auto-GFX CA for Iwata — PN: N9500

- Unique 0.40 mm needle and nozzle combination for fine detail spraying and medium sized spray patterns
- Large, easy to clean gravity-feed bowl with lid

Auto-GFX CA Kit

Perfect for the Beginner to Professional Custom Auto-Graphics Artist

COMPRESSORS

Available for the beginning or casual airbrush user, Iwata Studio Series Compressors utilize the latest technology to fulfill your every airbrushing need. Powerful, compact and remarkably quiet, these reliable compressors, with oil-less piston motors, are low maintenance and affordably priced, meaning artists can now spray a variety of different mediums without compromise. Sold complete with fittings, filters, air hoses and an adapter to fit any airbrush.

Smart Jet Item #IS850

The Smart Jet compressor is perfect for the occasional and professional artist doing general airbrush applications.

- Zero-maintenance, oil-less piston air compressor
- Extra hose for enhanced moisture separation
- Moisture filter also prevents pulsation
- Mounted air pressure gauge
- Bleed valve airflow adjustment to lower air pressure
- High-strength polyurethane hose fits Iwata airbrushes
- On/off switch
- Built-in airbrush holder
- Size: 10 x 7 x 6 in. (25 x 18 x 16 cm)
- Smart Jet Technology

Technical Specifications

Hp: 1/8 Hp
CFM: 0.64 CFM@open flow
Voltage: 110V/60hz
PSI: 1-35 PSI max. pressure
Shipping Weight: 8 Pounds

Smart Jet Pro Item #IS875

The Smart Jet Pro compressor is perfect for the occasional and professional artist doing general airbrush applications.

- Zero-maintenance, oil-less piston air compressor
- Case-mounted air regulator / moisture-filter
- Air regulator for precise air-pressure adjustment
- Strong protective outer case
- High-strength polyurethane hose fits Iwata airbrushes
- On/off switch
- Built-in airbrush holder
- Size: 10 x 7 x 6 in. (25 x 18 x 16 cm)
- Smart Jet Technology

Technical Specifications

Hp: 1/8 Hp
CFM: 0.64 CFM@open flow
Voltage: 110V/60hz
PSI: 1-35 PSI max. pressure
Shipping Weight: 14 Pounds

Smaller Size!

Power Jet Lite Item #IS925

Built with Iwata's Smart Technology, the Power Jet Lite automatically shuts itself off when not in use and with no tank reservoir, delivers all the power necessary for use with the high paint-flow Iwata Eclipse and Eclipse G6 Pistol Grip airbrush.

- Zero-maintenance, oil-less DUAL piston air compressor
- Case-mounted air regulator / moisture-filter
- Air regulator for precise air-pressure adjustment
- Strong protective outer case
- High-strength polyurethane hose fits Iwata airbrushes
- On/off switch
- Built-in airbrush holder
- Size: 10.5 x 12 x 6 in. (26.5 x 31 x 15.5 cm)
- Smart Jet Technology and 2X Sprint Jet Power

Technical Specifications

Hp: 1/6 Hp
CFM: 1.2 CFM@open flow
Voltage: 110V/60hz
PSI: 1-60 PSI max. pressure
Shipping Weight: 17.5 Pounds

Power Jet Item #IS900

Engineered with a large capacity air storage tank, it's an excellent compressor for the occasional or professional airbrush user doing general or extended airbrush applications at low or higher air pressures.

- Zero-maintenance, oil-less DUAL piston air compressor
- 3.5 liter air storage tank, for spraying at higher pressures and maximum moisture separation
- Zero pulsation at all air pressures
- Case-mounted air regulator / moisture-filter
- Air regulator for precise air-pressure adjustment
- Strong protective outer case
- High-strength braided nylon covered hose fits all Iwata airbrushes
- On/off switch
- Size: 16 x 13 x 7 in. (41 x 33 x 18 cm)
- Smart Jet Technology and 2X Sprint Jet Power

Technical Specifications

Hp: 1/6 Hp
Tank Size: 3.5-liter (0.9 Gallons)
CFM: 1.2 CFM@open flow
Voltage: 110V/60hz
PSI: 1-60 PSI max. pressure
Shipping Weight: 28 Pounds

Power Jet Pro Item #IS975

Featuring the same powerful twin-pump as the Power Jet, the Power Jet Pro compressor is equipped with dual air pressure regulators for precise adjustment of airflow to two individual workstations and a 2 liter tank reservoir to power the Iwata Eclipse and Eclipse G6 Pistol Grip airbrush.

- 2 liter air storage tank, for spraying at higher air pressures and maximum moisture separation
- Zero pulsation at all air pressures
- DUAL Adjustable pressure regulators
- DUAL Case-mounted air regulator / moisture-filter
- DUAL Quick disconnect ports
- DUAL Built-in airbrush holders
- Strong protective outer case
- Size: 13 x 9 x 7 in. (33 x 23 x 18 cm)
- Smart Jet Technology and 2X Sprint Jet Power

Technical Specifications

Hp: 1/6 Hp
CFM: 1.2 CFM@open flow
Voltage: 110V/60hz
PSI: 1-60 PSI max. pressure
Shipping Weight: 26.5 Pounds

Smart Jet Plus Tubular Compressor Item #IS875HT

The tubular air tank is the carry handle! Works great with the Eclipse BCS (40 psi), Kustom TH (40 psi fan/round cap), RG-3 (40 psi round cap), Eclipse G3, G5 and G6 (42-44 psi)

- Compressor shuts itself off automatically when not in use
- Zero-maintenance, oil-less piston air compressor
- Built-in airbrush holder
- Air Regulator and Gauge for precise air pressure adjustment
- Air tank (0.45 liter) inside the handle
- High-strength braided nylon covered hose fits all Iwata airbrushes
- On/off switch

Technical Specifications

Hp: 1/6 Hp
CFM: .81 CFM@open flow
Tank Size: 0.45 liter
Voltage: 110V/60hz
PSI: 1-60 PSI max. pressure
Shipping Weight: 13 Pounds

Power Jet Plus Tubular Compressor Item #IS925HT

The tubular air tank is the carry handle! Works great with Eclipse BCS (50 psi), Kustom TH (50 psi fan/round cap), and Eclipse G Series (42-44 psi).

- Compressor shuts itself off automatically when not in use
- Zero-maintenance, oil-less piston air compressor
- Built-in spray gun holder
- Air Regulator and Gauge for precise air pressure adjustment
- Air tank (0.5 liter) inside the handle
- High-strength braided nylon covered hose fits all Iwata airbrushes
- Two built-in cooling fans
- Smart Technology and 2x Sprint Jet Power
- On/off switch

Technical Specifications

Hp: 1/4 Hp
CFM: 1.4 CFM@open flow
Tank Size: 0.5 liter
Voltage: 110V/60hz
PSI: 1-60 PSI max. pressure
Shipping Weight: 17 Pounds

The Artool® Freehand® Airbrush Templates are a real asset to anyone who uses an airbrush. Delineate shapes by matching the contours of the Freehand® Airbrush Templates with the subject matter. Simply rotate or flip-flop these templates to find the shape which works best for a hard-edge shape, or you can raise the template slightly to create a soft-edge contour.

- With its unique raised edge, your parts will never roll away again!
- Take apart and reassemble your airbrush on a large, safe and soft surface
- Non-skid backing
- 11.75 x 10.75 in

PN: CL 200

ULTRA MASK™

Professional Masking Film For Airbrushing Graphics On Anything!

Ultra Mask is a solvent-proof, tinted film for easy reference and workability. It's low tack with secure adhesive strength is safe for artwork. Ultra Mask provides maximum stretch for those irregularly shaped surfaces.

PN: F501 24" X 5 yds roll

PN: F502 24" X 10 yds roll

PN: F503 9" X 6.5 ft roll

PN: F504 9" X 11" sheets (5 ea.)

FRISKETFILM™

FOR AIRBRUSHING, MASKING AND STENCILING

Artool FrisketFilm is a low tack, soft-peel, self-adhesive masking film. It has a translucent backing for easy handling, cuts cleanly and can be removed easily from nearly every working surface such as photographs, illustration board, Claybord, paper, canvas, glass, plastic, metal and glazed ceramic surfaces.

MATTE

PN: F301 10" x 4 yds roll (6 per carton)

PN: F302 14" x 4 yds roll (6 per carton)

GLOSS

PN: F401 10" x 4 yds roll (6 per carton)

PN: F402 14" x 4 yds roll (6 per carton)

STRETCHmask™

Adhesive-Backed Masking Film

StretchMask is a multi-medium, stretchable and flexible repositionable masking film. It is especially suited to conform to curved and irregular surfaces such as motorcycle tanks, helmets, etc. It is clear, thin film that cuts very easily with any brand of art knife or single-edged razor and can be effortlessly manipulated and repositioned with your artwork always in view.

PN: F101 18" x 10 yds

PN: F102 18" x 25 yds

AUTOMOTIVE MASK

Automotive Mask features a medium to low tack adhesive that is designed for airbrushing with automotive basecoat/clearcoat. It is also semi-transparent and can be written on with pencil or pen. Automotive Mask can be cut and if used properly will leave no adhesive residue.

PN: APL4050 12" x 100 yds

Hobby Mask™

Adhesive-Backed Masking Film

Hobby Mask is a clear adhesive airbrushing film, which is solvent-proof and can adhere to irregular and odd contours. It is especially suited for model-making applications, such as scale autos, RC car bodies, camouflage, armor patterns, weathering accents, racing stripes, modern geometric designs and nearly any airbrush or paint masking application.

HM-1 6" x 10 yds.

HM 2 MS 4" x 5 yds.

Universal Airbrush Holder

- Securely holds two of any make/model airbrush
- Heavy-duty clamp for tables up to 3 inches (76.2 mm) thick
- Includes Workstation bracket for Iwata Universal Spray Out Pot

PN: AH400

Pistol-Grip Moisture Filter

- Last line of defense against moisture attaching directly onto the airbrush
- Miniature in size, the super-fine, 5-micron filter element performs like a full-size filter separator
- Clear filter bowl allows visual inspection of built-up moisture and is evacuated through a spring-loaded release valve – without taking the filter off the airbrush
- Acts as a handle on the airbrush to add comfort and relieve muscle tension

PN: 4274

AIR-PORT™

AIRBRUSH WORK STATION
BY KARAJEN CORP. Patent Pending

Easily mount your AIR-PORT with its sturdy mounting magnets anywhere you work or bolt it to a desired location for permanent mounting. Holds 3 airbrushes and all your airbrushing supplies (not included).

Dimensions - 9" w X 5" d X 2.5" h

Weight - 4 lbs

PN: KJ 200

AIR-PORT HANGER™

BY KARAJEN CORP. Patent Pending

The AIR-PORT HANGER features adjustable sliding arms to accommodate various airbrush styles and attaches securely to most metal surfaces by its powerful mounting magnet, or it can be bolted permanently to any work area.

PN: KJ 100

Medea Airbrush Cleaner

- High-strength, general-purpose cleaner, great for cleaning any airbrush or artist tools
- Environmentally safe and ready to use
- Apply in the needle cap and along the needle to enhance paint flow and prevent tip drying

4242 4 oz. Cleaner

4217 8 oz. Cleaner

4216 16 oz. Cleaner

4226 32 oz. Cleaner

Medea Super Lube

- Natural and non-toxic, can be used on all moving parts of an airbrush
- Use on main lever, needle packing and valve-piston packing to keep them moving smoothly
- Apply in the needle cap and along the needle to enhance paint flow and prevent tip drying

Side-Feed Bottles, Siphon- and Gravity-Feed Cups

- Add versatility to any side-feed Iwata airbrush with these bottles and cups

Bottle Set PN: 4222

- One 1 oz. and 4 oz. Bottles, 1 oz. Medea Airbrush Cleaner and two 2 oz. Bottles

Pre-Set Adjustable Handles

- PN: 4287 — HP-A, B and SB
- PN: 4105 — HP-C, BC, BC2, CS and SBS
- PN: 4065 — HP-BE1 and BE2
- PN: 4121 — Single Cut Handle HP-C, BC, BC2, CS, BCS and SBS

- Great for adjusting to the perfect working spray width
- Limit the amount of needle travel, allowing for greater control of the airbrush
- Ideal for students getting started or for professionals where the finest control of spray is needed
- Adjustment screw is finely threaded, allowing for precise fine tuned control
- Handles available for all Iwata airbrushes, except the Revolution SAR

FA700DH

Iwata Moisture Filter with Regulator and Gauge

PN: FA600DH and FA700DH

- Essential for optimizing the performance of both the compressor and the airbrush
- Attach either directly to the air source or can be placed inline between two airhoses
- A high-quality 5-micron filter is used to remove any potential moisture particles
- Includes Workstation Bracket for Universal Airbrush Holder

Universal Spray Out Pot PN: CL 300

- Eliminate overspray when cleaning your airbrush
- Universal airbrush hanger fits all gravity-feed, side-feed, bottom-feed and trigger-style airbrushes
- Filter cap/parts holder (extra filters included)
- Easy-to-clean, dishwasher safe 10 oz (300 cc) glass pot with removable, non-skid pot sleeve

Cobra Coil Airhose PN: 4132 — 10' (3.05m)

- Unique in its design because it recoils out of the way when not in use
- Made of strong polyurethane for use with all Iwata airbrushes and most other airbrush brands

Straight Shot Airhose

PN: 4012 — 10' (3.05m)

- Made of polyurethane, which is 1/3 the weight and twice the strength of the braided airhose
- For use with all Iwata airbrushes and most other airbrush brands

Nylon-Covered Braided Airhoses

PN: 4010 — 10' (3.05m)

- Available for all Iwata airbrushes

PN: BT 050 — 10' (3.05m)

- 1/4" fittings on both ends
- Available for the LPH80 and other touch-up spray guns

Quick Disconnect Sets PN: 4275

- Completely shuts off airflow when disconnected
- Screws onto all Iwata airhoses and airbrushes
- With its quick-release action, changing airbrushes is fast and easy with one air source and hose
- Rated for air pressures up to 120 psi

Quick Disconnect Adaptors (Male Only) PN: 4275-2

- Screw onto each Iwata airbrush and are used in conjunction with the quick disconnect set on the airhose
- Allows for the convenient use of multiple Iwata airbrushes with one airhose

Part Numbers (PN:)

AIRBRUSHES

Custom Micron Series (Version 2)

4202 V2 (ICM2002)	CM-B Airbrush
